BRAINERD, MINNESOTA, THURSDAY, JULY 7, 1910.

Price Two Cents

ROOSEVELT HAS BEEN LED ESTRAY

Such Is the Opinion of Secretary Ballinger.

HE IS NOT A PARTY LEADER

Cabinet Officer Declares That He Has Not Been Active in Politics in the State of Washington for a Long Time—Says That Congressman Poindexter Is a Rank Socialist.

Washington, July 7.—"If the published report is true, Mr. Roosevelt has been badly led astray by the deception of people who claim to be his friends," said R. A. Ballinger, secretary of the interior, commenting on dispatches from Oyster Bay that Mr. Roosevelt intends to endorse the senatorial candidacy of Representative Miles Poindexter of Washington, an insurgent and an outspoken critic of Secretary Ballinger. Mr. Ballinger referred, of course, to this statement attributed to Mr. Roosevelt:

"Representative Poindexter and I went over the political situation in the Northwest. He told me that he was in hearty sympathy with my conservation policies. Mr. Poindexter is a candidate for the United States senate from Washington and is politically opposed to that wing of the party in his state headed by Secretary Ballinger."

Secretary Ballinger said that he had not been active in politics in Washington for a long time and he denied that he was a party leader in any sense of the term.

"I do not consider Representative Poindexter a Republican," continued Secretary Ballinger. "He is a rank Socialist, or, rather, if he is not one he will be one soon."

Representative Poindexter's reception at Oyster Bay made Washington sit up and take notice. Secretary Ballinger was not the only one who expressed amazement over statements made by Mr. Roosevelt following the conference which, by implication at least, gave the impression that the former president had taken Mr. Poindexter to his bosom and would henceforth give him aid and comfort in his political career.

When Uncle Joe Cannon heard the news from Oyster Bay he gasped. He said he would make no comment on the incident until he had received fuller advice concerning it. The speaker expressed some doubt as to the accuracy of the news from Oyster Bay.

Reception Accorded Poindexter.

While Mr. Roosevelt has denied that he has endorsed Mr. Poindexter's senatorial candidacy, a good deal of significance is attached to the warm reception accorded Mr. Poindexter at Oyster Bay, and the friendly comments on the interview made later by Mr. Roosevelt.

Friends of the Taft administration here believe that Mr. Roosevelt's reception to Mr. Poindexter, the only man in public life in Washington, the home state of Secretary Ballinger, to espouse the cause of Gifford Pinchot in the Ballinger-Pinchot row, indicates that differences exist between the president and the former president on the question of conservation as administered by the present head of the interior department. Beyond this point officials here will not concede that there are any differences between Messrs. Taft and Roosevelt. They appear to be of the opinion that the retirement of Mr. Ballinger from the cabinet would heal a breach that may widen if Mr. Ballinger remains at the head of the interior department.

Washington now has a lively senatorial campaign on its hands. There is a free-for-all fight for the seat now occupied by Senator Samuel H. Piles, whose term will expire on March 4 next. Mr. Piles announced some months ago that he would not be a candidate for re-election. The leading candidates for the office are John L. Wilson, a former senator, Judge John E. Humphreys and Mr. Poindexter. There are others, but it is generally admitted that one of the men named will land the plum.

Up to a recent date Mr. Wilson was making a runaway race of it. He was leading the field and Poindexter and Humphreys had practically been counted out. Whether the Roosevelt-Poindexter conferences at Oyster Bay will affect the situation in Washington remains to be determined. Folks familiar with conditions in Washington say that Poindexter will undoubtedly make capital of his talk with Mr. Roosevelt.

WOMAN IS BURNED TO DEATH

Caught in Blazing House While Asleep and Unable to Escape.

Richmore, Minn., July 7.—Alice Spaulding was burned to death and five other persons narrowly escaped with their lives when the home of Arthur Spaulding near here was destroyed by fire.

Sleeping in the house in addition to the woman were Mr. Spaulding, his wife and Dr. Rose Smith and two children of Minneapolis.

The children, after being overcome by smoke, were thrown from a window. Firecrackers are supposed to have been the cause of the blaze.

ABERNATHY BOYS.

Will Return to Their Home in an Automobile.

RETURNING BY AUTOMOBILE

Abernathy Boys Will Not Ride Horses to Oklahoma.

New York, July 7.—The Abernathy boys, Louis and Temple, who rode horseback from Oklahoma to New York to greet Colonel Roosevelt, left for their home in a runabout automobile, with Temple at the wheel. Marshal Abernathy accompanied the boys in a touring car. They called on Colonel Roosevelt at his office to bid him goodbye.

NO BAND TO MEET THE BIG CHAMPION

Chicago Police Chief Puts Damp on Celebration.

Chicago, July 7.—Jack Johnson, the negro champion, will be met by a great delegation when he arrives in Chicago, but there will be no band to meet him, and there will be no formal triumphant parade through the streets, if the plans of the police department are executed. On the other hand, the friends of the prize fighter declare that the order of the police department is "outrageous."

Bob Mott, a wealthy negro saloon-keeper, and other negroes declared that they would seek legal advice, and that the chief of police might have a mandamus suit, which if forcibly acted upon would compel the city authorities to issue a permit for the parade they wish to hold.

When the negroes appeared before Chief of Police Stewart to ask for a permit, he told them that it would not be granted. They insisted that he give a reason for his decision. He told them that such a procession through the downtown streets would block the traffic.

Without telling Assistant Chief Schuetler that their request had been refused by his superior, Mott with his followers made their second request for a permit to him. Schuetler granted it. This is now in possession of Mott. Whether or not he will attempt to use it is not known. The police department has been instructed not to honor it if it is presented, and Schuetler has issued an order rescinding it.

GRAIN AND PROVISION PRICES

It is said that nails cut from a solid sheet of zinc are practically indestructible.

CONSTRUCTION IS SET BACK

Condition of Crops Said to Be Cause of Let Up.

Esmond, N. D., July 7.—It begins to look as if the Soo railway company does not intend to complete its Drake-Devils Lake-Medford cut-off this summer. President Pennington, Chief Engineer Greene and Contractor Foley made a trip over the line recently in an automobile, and following their visit it was rumored that owing to the fact that crops promised to be below the average in the territory traversed by the new line, no new sub-contracts for grading would be let this season.

Contractor Jamieson, who has a camp near the boundary line between Pierce and Benson counties, two miles west of Elmora, and about thirteen miles northwest of Esmond, visited Esmond and unloaded several carloads of graders' machinery that had been standing on the sidetrack for the past week. He rented a warehouse and stored the machinery, and expects to leave it there until next spring. He will continue his work of grading, with a diminished force of men, until he has completed work already opened up, but will not commence any new work for the present. He laid off about thirty of his crew last week. Many farmers have applied to him for work for their teams, but he could not use them.

On the other hand it is said that the grading of the new Fargo-New Rockford-Minot line of the Great Northern will proceed as briskly as ever. Louis Score, who has a contract for grading on that line, southwest of here, states that grading has not let up a particle, and that new sub-contracts for grading were being taken. So it would seem as if that line would be completed this season.

RAIN FALLS OVER LARGE SECTION

Storm Kills Number of Horses and Live Stock.

BENEFICIAL TO THE CROPS

Showers in Minnesota Cause Heavy Damage, but Also Prove of Great Benefit to Growing Grain—Terrific Electric Storms Visit Some Sections of the North Star State.

Herman, Minn., July 7.—A destructive hurricane passed over this section, destroying a large number of barns and dwellings and killing a number of horses and live stock. The storm operated in sections and at farm places near Norcross every building was picked up and strewn over the country. No loss of life or injury to persons have been reported. Large areas in this immediate vicinity are total wrecks. A soaking rain fell after the storm. Crops are in the best of condition, and the wind did very little damage to crops.

Sauk Center, Minn., July 7.—A most terrific electric storm struck this city and continued for about thirty minutes. The vivid lightning was accompanied by a high and heavy wind with bursts of rain. Trees were torn up by the roots. The chimney of the Methodist Episcopal church was struck and knocked down. The rain did considerable good to the crops. Hay is heading out and ready to cut. Wheat needed the rains, and the corn is in excellent condition. It is thought that this rain will save some of the crops in the western part of the county, which was suffering most for lack of rain.

Millbank, S. D., July 7.—A storm struck Millbank and blew down the circus tents, injuring two people, but not seriously. Thirty people were caught in the debris under the canvas and all slightly injured. Terrific rains are reported at Reville, where two store fronts were blown in, a roof torn off and Reuk's double store and Shampine's livery barn were wrecked. Several large buildings were wrecked, with one seriously injured.

SEVERAL BUILDINGS DAMAGED.

At Nassau, Minn., several thousand dollars of damage was wrought to the business streets. Several buildings on the main street of Marietta, Minn., were damaged and one man injured.

At Altamont, S. D., buildings were damaged.

Crookston, Minn., July 7.—Reports show heavy rains at McIntosh and all of eastern Polk county. Hail wiped out over half of Northland township in northwestern Polk and reports of damage by hail are growing in northwestern Polk and Marshall counties. Many rural phone lines are down and definite news is lacking. The storm traveled from the southwest to the northeast.

Sioux Falls, S. D., July 7.—Heavy thunder showers over a considerable area in this part of the state gave crops much needed moisture and will prove of great benefit, following the hot and dry weather of the past few weeks. Corn especially is remarkably well and is in a flourishing condition.

Pillager, Minn., July 7.—The forest fires raging between Pillager and Sylvan were partly checked by rain.

Cass Lake, Minn., July 7.—Considerable rain fell here, which does much to improve conditions in this vicinity, as vegetation of all kinds has required moisture for the past two weeks. It also put a damper on the numerous forest fires that have been springing up around here and threatening to do considerable damage.

HITS HARD.

About the only time a pretty girl hits the object she aims at is when she throws her eyes.

SATISFIED WITH PLATFORM

South Dakota Republicans Like That Adopted by Convention.

Sioux Falls, S. D., July 7.—Republicans of the state in general appear well satisfied with the platform adopted by the state convention and it is assured that upon the platform the stalwart and progressive Republicans who compose the congressional and state tickets will sweep on to an overwhelming victory at the polls in November.

The platform does not mention the two senators and the two representatives from South Dakota and this is the only source of heartburning. The omission was intentional, the delegates in the convention being so strongly opposed to the new tariff bill and what is known as Cannonism and Aldrichism that they did not wish to put into the platform a single word that could even remotely be construed as an endorsement of these.

The progressive Republicans charge that the South Dakota representatives in both branches of congress have been identified more or less with the special interests during the last session and because of this the convention refused to endorse the work of the South Dakota delegation.

Nevertheless the stalwarts and the progressives will be united in the coming campaign and expect to roll up an old time Republican majority.

WILLIAM H. MOODY.

Friends Claim He Will Not Resign From Supreme Court.

MOODY MAY REFUSE TO QUIT

Friends of Justice Declare He Will Not Resign.

Magnolia, Mass., July 7.—Friends of Associate Justice Moody of the United States supreme court still hold the opinion that he will not resign at present, and some of them go as far as to say that he will not accept the provisions of his retirement act. No statement direct from Justice Moody can be obtained.

NORTON NAMED FOR SECRETARY OF STATE

Progressive Defeats Stalwart in North Dakota.

Grand Forks, N. D., July 7.—Although it is a week since the primary election in North Dakota took place it was only now that enough of the returns have been received to make positive the result of the contest for the nomination for secretary of state and for superintendent of public instruction on the Republican ticket. P. D. Norton, progressive, is the successful candidate for the first place, while E. J. Taylor, stalwart, wins the other place.

There are still five small counties missing in the returns on these two offices, but those counties will go in such a manner as to strengthen both of the present leaders, except in the case of one county in the superintendent of schools race.

The race between Norton and Henry for secretary of state was spectacular. At one time less than a dozen votes separated the candidates, but with later returns from southwestern counties and progressive counties in the eastern section Norton has gradually drawn ahead until the count is now 17,282 to 16,513, giving him a lead of 770 votes, which Henry cannot possibly overcome unless there have been mistakes in the returns of some of the counties already on hand. The counties remaining to report are in the southwest, where Norton has been unusually strong.

For superintendent of public instruction Taylor and Woods have had a fine contest, with Taylor slightly in the lead from the start. The margin has been very narrow at times, but Taylor is now 1,159 votes ahead, the count being 23,966 to 22,807, showing a very heavy vote of women. The normal men's vote in the counties reported was about 35,000, making 8,000 women who have voted in the same counties. The counties that remain to be reported will doubtless go for Taylor and he will receive the nomination.

Chairman J. L. Cashel of the Democratic state central committee has been busily engaged looking up the Democratic vote on governor. In twenty-three counties he has found 6,800 votes and he stated that the total count would be between 12,000 and 12,600, assuring Burke's nomination by a safe margin of from 2,500 to 3,000 votes.

The contest for the Democratic senatorial nomination is also still unsettled, Duls and Bruegger running very close in the reports at hand so far.

Miner Killed.

Eveleth, Minn., July 7.—Rock Haulsh, an Austrian miner, single and twenty-three years old, died at the Mora hospital from injuries received when a steam shovel fell upon him. The hoisting chain of the shovel broke, causing it to drop.

The Bed in Sickness.

Few people realize that for most diseases the bed, and it alone, is the greatest, surest, quickest cure the world and ages of science have yet discovered or bestowed. People as a rule look upon going to bed for sickness as a necessary and unavoidable consequence of sickness instead of looking upon it, as they should, as being the very first and greatest part of the cure of the case.—New York Press.

BLEACHED FLOUR CASE VERDICTS

AUTOMATIC ENUNCIATOR TO SAVE HUMAN VOICE.

Chicago Invention Useful in War, Peace and Sport.

The first public demonstration of an "automatic enunciator" took place recently in Chicago. The invention is a development of telephone experiments. By the use of electro-magnetic action the voice of a speaker is carried along as many wires as desired and for any distance, then sent out through graphophone horns, so as to be audible in a large room.

At the demonstration inventor L. M. Cole spoke in a tone that could not have been heard thirty feet away, and in a dozen rooms all over the building the reproducer emitted the tones clearly.

The enunciator can be attached to telephone circuits in large buildings, and in every room simultaneously the message will be given. These are some of the uses the promoters give.

Patrons guests simultaneously in every public room of a hotel.

Giving information to department heads in wholesale houses from the main office. Announcing trains from several horns in large station houses.

Sending commands to every officer on a battleship.

Announcing streets to passengers at every seat in street cars.

Adding the audiences of theaters, operas and churches to hear all that is said and even carrying the sound to residences.

Notifying building employees of fire in the building.

Calling carriages and automobiles at theater entrances.

Delivering complete baseball and racing news to any number of halls.

Carrying the voice of a speaker to audiences at "overflow" meetings.

The results are gained by alterations to three telephone agencies—the transmitter, the receiver (or producer, as it is here called) and the circuit itself. The nature of these alterations the promoters refuse to give out until patents are perfected and manufacture started.

PULLMANS USED IN SUBWAYS

London Underground Surpasses New York in Comfort.

New Yorkers may think their subway is up to date in every detail, but it isn't—that is, compared with London's underground. The latter has introduced the very latest in comfort. It is running on several of its trunk lines Pullman buffet cars.

A commuter who misses his breakfast can get it on the train. Later in the day passengers can have lunch, and after 4 o'clock they may have tea. Soon the Pullmans will be attached to the theater trains, and supper may be had on the way home.

The Pullman company has never been able to extract from Englishmen a fare equal to that familiar to Americans. The Pullman conductors on the trains to Brighton, fifty miles from London, collect only a shilling (25 cents) for the journey. The trains to Folkestone, seventy-nine miles from London, carry Pullmans, and the Pullman fare is only a shilling.

There are no Pullmans on the long distance trains to the north, to Glasgow and Edinburgh, but the railroad companies provide very comfortable sleepers, for which \$1.25 is charged in addition to the fare. The passenger is provided with a compartment all to himself. There are no upper berths. The compartment contains a lavatory and an electric reading lamp. They aren't luxuriously upholstered in the well known Pullman form of high art, but their comfort and cleanliness are undeniable.

TRY OUT MONEY LAUNDRY.

Uncle Sam's Bills Scrubbed by Machine at Washington.

Uncle Sam's money laundry is getting a tryout in the United States bureau of engraving and printing. Director J. D. Ralph is on the job watching with interest the renovator of dirty bills do its duty. The machine on trial is one invented by Frank B. Churchill.

The machine takes bills and spreads them on a screen. This screen is revolved rapidly through a solution of soap and water, which takes off the grime. The next disk takes them through a strong solution of a disinfectant, which removes the germs. A third disk removes the traces of the other two waters and sends the bill out on to a plat ready for the "plater."

The "plater" is the same roller used to press new money. It is this machine that gives new money its crispness. After the washed out bills are run through the "plater" they are comparatively new, the ink colors having been brought out again and the dirt removed.

It is Mr. Ralph's idea that the life of a banknote will be extended about 60 per cent by the new method. The machine which he wants will cost between \$800 and \$1,000. It will save from \$500,000 to \$1,000,000 annually.

The Mouths of Leaves.

The botanist, the real investigator who has got down to making real explorations for himself, will talk to you about the thousands of minute stomates on the surface of a leaf. These invisible stomates are really the mouths through which the leaves take in carbonic acid. They are most abundant on the upper surface of leaves.

Each is an oval opening guarded by a pair of lips which open and close according to requirements. They vary from less than 1,000 to more than 20,000 to the square inch of leaf surface.

Jury Decides in Favor of the Government.

PRODUCT WAS MISBRANDED

Jurors Decide That Flour Not Only Was Bleached But That It Was Not Properly Labelled—Federal Government Prosecuted the Suit Under the National Pure Food and Drug Act.

Kansas City, July 7.—"We, the jury, find that the flour seized was adulterated."

"We, the jury, find that the flour seized was misbranded."

These two verdicts were returned in the federal court here by the jury that for more than five weeks had listened to testimony for and against the charge of the government that 622 sacks of flour, bleached and sold by the Lexington Mill and Elevator company of Lexington, Neb., and seized by the government while in the possession of the purchaser, a grocer at Castle, Mo., were adulterated and misbranded.

The verdicts, returned after seven hours of deliberation, were a complete victory for the government, which prosecuted the suit under the national pure food and drug act. The government charged that the flour was adulterated in that it was bleached by the Aloxop process, which makes use of nitrogen peroxide. Misbranding was charged in that the flour seized was labeled a fancy patent and, the government contended, it was not a fancy patent because it was not made from a first grade of hard winter wheat.

Pierce Butler, special attorney for the government in this case, was not in court when the verdict was returned, having left for his home in St. Paul while the jury was deliberating.

Bruce Elliott, chief counsel for the millers, made the following statement after the jury had reported:

"This case was not one that should have been tried by a jury. I called personally upon President Taft and assured him all the millers desired was a fair test case."

"The president assured me the millers would not be barred and that a fair test should be had. Immediately thereafter, under orders of the attorney general, these seizures began in different parts of the country. We started out to defend the cases on the assumption that the government would permit them to be tried before a referee."

SENTIMENT IN ITS FAVOR

The Only Thing That Will Make Equal Suffrage Successful.

Pierre, S. D., July 7.—If equal suffrage wins at the fall election in this state, it now appears that it will be because of a widespread sentiment in its favor, instead of through any closely organized campaign work. The state organization, led by Mrs. J. A. Johnson of Fort Pierre; the national organization represented by Miss Penfield of Texas; and the different county organizations are hopelessly tangled at present.

Added to this is the complication of an organization of the W. C. T. U. headed by Mrs. Johnson of Highmore, which is conducting a campaign from Mitchell entirely distinct from the state suffrage headquarters at Sioux Falls.

The reports which drift out from their different meetings indicate that the state organization does not get along with the different county organizations, the local people contending that the state organization refuses them any right of initiative in organization or work.

The state headquarters and the representatives of the national association do not appear to be getting along any more smoothly. Miss Penfield did not appear to be able to handle the situation and Judge Barton O. Aylesworth of Denver came to see if he could help matters. Up to the present the women appear to have been wasting their strength and efforts in quarrelling with one another rather than in directing a campaign organization.

Early in the campaign the W. C. T. U. leaders demanded the right to conduct the campaign, but the Equal Suffrage association leaders took the position that control by that organization would bring stronger antagonism from the liquor element, and insisted on a campaign through their own organization.

The W. C. T. U. people then flocked by themselves and opened headquarters at Mitchell, where they appear to be working without friction.

TWO DEATHS AT MILWAUKEE

Fourth of July Casualty List Continues to Grow.

Milwaukee, July 7.—Two deaths have been added to the July 4 casualties. George Brownell, whose leg was shot off with a shotgun, died. Charles Remie, aged seven, whose clothes were set afire by a firecracker, died at the hospital. Both accidents took place early Monday.

THURSDAY, JULY 7, 1910.

Jeffries now claims he was blinded,
and there is probably much truth in
the statement. That is what the big
black fighter was there for.

Wm. Jennings Bryan has again re-
iterated that there is no office in the
gift of the people that he wants or
ever expects to aspire to. What is
William fishing for now.

The opposition to James A. Tawney
in the First district are put to their
wits end to find a candidate to make
the race against him at the primary
election and in all probability he will
receive the nomination without a
struggle and will be elected to con-
gress over any democrat that cares
to cross bats with him. The people
of the First district are making no
mistake and the whole state of Min-
nesota is interested in seeing Tawney
returned.

The Mississippi river is the lowest
it has been in fourteen years and the
sawmills are closing because of in-
ability to float logs to market and
steamboat traffic in many instances
below St. Paul has been suspended.
At Minnehaha falls the water drips
over the rocks instead of the usual
rush that has made their fame world
wide. The conditions are unprece-
dented in the memory of those who use
water power or river navigation for
their business.

Owing to the shortage in the hay
crop as a result of the dry weather
Prof. Bull, of the state agricultural
school, has prepared a circular ad-
dressed to the farmers of the state
advising the planting of fodder corn
as a substitute, and explains that it
will be possible for the farmers to
meet the demand for feed and high
prices by putting in corn fodder now.
It is a matter of some concern and
the advice should be heeded.

Five Minnesota cities, Little Falls,
Anoka, Montevideo, Lake City and
Owatonna, have each been granted
appropriations of \$5,000 with which
to purchase sites for proposed new
federal buildings. The appropriation

of money for this purpose is the first
step and the important one in pro-
viding cities with government build-
ings. The Little Falls Transcript re-
marks:—"As Brainerd is this year
starting work on the federal building
the bill for the site of which was
passed during Congressmen Buck-
man's last term, several years will
probably elapse before anything ma-
terializes in the way of building at
the places mentioned but the first
necessary stage of the process has
been passed."

July 2nd

The election of July 2nd for the
incorporation of the village of Cros-
by was practically a unanimous vote,
58 were cast for incorporation and
two votes against it.

Cuyuna also voted for village in-
corporation on July 2nd, the vote be-
ing overwhelmingly in favor of incor-
poration.

A Dreadful Wound

from a knife, gun, tin can, rusty nail,
fireworks, or of any other nature, de-
mands prompt treatment with Buck-
lin's Arnica Salve to prevent blood
poison or gangrene. It's the quick-
est, surest healer for all such wounds
as also for burns, boils, sores, skin
eruptions, eczema, chapped hands,

Entertain in Honor of Son

Mr. and Mrs. E. Levant entertain-
ed a large party of friends at their
residence 310 North Ninth street
last Sunday afternoon in honor of
their little baby son, Arthur.

The ceremonies were conducted by
Rabbi S. A. Lass, of Minneapolis.
Among the many visitors present
were Mr. and Mrs. A. Mark, Moe
Mark, Miss Anna Mark and Miss
Sarah Polinsky, of Duluth; Mr. and
Mrs. M. Marcus, of St. Paul; Mr. and
Mrs. S. Levant and Charles Levant,
of Eveleth; Mr. and Mrs. R. Buch-
man and Mr. and Mrs. B. Soloski, of
Brainerd; Mr. and Mrs. H. Buchman,
of Detroit.

MERRIFIELD ITEMS

Miss Dot Sorelson is home on a
vacation from her school at Onamia.

Hazel Brockway has finished her
school work at Mission and is spend-
ing a few days with her parents at
their cottage here, the "Eagle's Nest."

Richard Ludlow has sold his farm
to Elmer Wright. Mr. Ludlow will
still live on the place. Mr. Wright
was formerly in the creamery busi-
ness near Cedar Rapids, Iowa.

Robert Ludlow went down to the
R. Dalman farm southeast of Brainerd
today to commence his duties as
foreman on that place. Mr. Ludlow
is a good worker and knows his busi-
ness. The people of Merrifield wish
him success.

Mrs. Geo. Russell was in Minne-
apolis one day last week.

Wm. Brockway and family re-
turned to their home in Brainerd to-
day after a week's outing at their
camp here.

A big crowd witnessed the ball
game here Monday between Mission
and Merrifield, the former team win-
ning the game.

The dance given by Walter Stearns
Monday night was well attended, a
good many people coming from
Brainerd, Nisswa and Mission. Music
was furnished by the Russell or-
chestra. All report a good time.

Mr. and Mrs. J. P. Russell and
daughter Blanche, returned home
Wednesday after a few days

4TH IS CELEBRATED IN DEERWOOD

Celebration Draws a Large Crowd of
Visitors From Neighboring
Towns

IMPORTANT COUNCIL MEETING

Water System Being Installed for
Four Firms in Business
District

Deerwood, Minn., July 6.—The council met in regular session on Tuesday evening at the brand block. All members were present.

The application of McManus & Co., of Cloquet, for a six months' malt liquor license at the W 1-2 of lot 11 in block 4 was granted.

A letter from Harry Patterson, assessor, was read showing the assessment for the village of Deerwood as returned by the board of review to be as follows:

Real estate.....\$ 96,399.00
Personal.....43,749.00

Total.....\$134,148.00
Exempt.....5,200.00

Total.....\$128,948.00

The following bills were audited and disposed of as follows: Harry Patterson for assessing real and personal property of the village of Deerwood, \$55; Oberheim and Boyer, two 60 gallon portable chemical engines and equipment \$650.00; hook and ladder wagon and equipment \$225; a number of street labor bills; also \$7 each to Oscar Erickson and M. S. Lamey who served as constables on the Fourth of July.

The Fourth was generally and enthusiastically celebrated in Deerwood. As Crosby and Cuyuna had no celebrations, the people of these towns and of Atkin and Duluth came to Deerwood in large numbers. The declaration of independence was read by Rev. Suver. An eloquent patriotic oration was delivered by Rev. G. Abrun Swanson. The day's celebration was under the auspices of the Deerwood Concert band and the arrangements were perfect. Adjoining Oberg's restaurant a pavilion was constructed where dancing was indulged in all afternoon and evening, as well as at Hillyard's entertainment hall.

In the various contests there were many entrants. The tug of war was won by the band boys who defeated the husky team from Cuyuna. This probably comes from the fact that the band boys pull and play in better time and harmony than their neighbors to the north. The succeeding races were picked up by Clarence Rice who seems to have cleaned up the whole Fourth of July program. Bicycle race won by Clarence Rice; three legged race won by Clarence Rice and Roy Cunningham; log rolling contest won by Clarence Rice. The freu ney that Rice's name appears can only be accounted for by the fact that all of Deerwood's best athletes were held in reserve to win the baseball game.

The widely advertised \$25 purse base ball scheduled for the morning was won, actually won, by Deerwood by the narrow score of 7 to 6. The six end of the score was made by Cuyuna. The game was so full of thrilling situations and exciting plays that many of the fans nearly dropped dead of heart disease. L. C. Kressal and the rest of the boys are still receiving congratulations. As one of the boys remarked: "If Ed James could only have been here and seen us now." But Ed James was away on his wedding tour. The batteries for the victorious Deerwood's were Williams and Mahlum; for Cuyuna were Anderson and Petrabor. The feature of the game was the pitching of Williams.

Things changed in the afternoon. Stung by the morning's defeat Cuyuna sprang on its hands, figuratively speaking, pulled up its sleeves and made the honors even by winning the second game from Deerwood by the score of 8 to 2. The batteries for Cuyuna were Rhoades and Petrabor; for Deerwood were Poston, Williams and Brindos.

A pressure tank water system known as the Kewanee system is being installed jointly by Messrs. Carlson Bros., E. A. Wasserzieher, Ralph Graham and Oberg Bros. Part of the equipment is situated between the barber shop of Graham's and the postoffice building.

E. J. Watts is erecting a two story frame building 25x60, on concrete foundations, which will be used as a restaurant, bakery and probably as a rooming house by T. H. McBride, who is at present conducting the restaurant near the postoffice. R. E. Barton is the foreman in charge of the work. Rapid progress is being made with the building as Mr. Barton expects to complete it by August 1st.

Mr. and Mrs. O. L. Mather of South Twenty-first avenue east have returned from Deerwood, where they were the week-end guests of Dr. and Mrs. Sewall.—Duluth Herald.

G. V. Burgess has gone to Deerwood for a few days' fishing.—Duluth News-Tribune.

A handsome baby boy arrived at the home of Mr. and Mrs. H. J. Kruse on July 3d. Mother and child

are doing well and Supt. Kruse is very happy.

George H. Crosby and son Howard, are at Deerwood for a few days.—Duluth Herald.

The Misses Ferguson, of Duluth, have arrived and will spend the summer in Deerwood.

Announcements have been received in Duluth of the wedding of Miss Harriet B. Hazen and M. E. Crosby, who were both former Duluth residents. Mr. and Mrs. Crosby will be at home after Aug. 1 at Crosby, Minn.—Duluth Herald.

Miss Myrna Newell of Deerwood is spending a few weeks with Miss Helen Walker.—Duluth Herald.

Mr. and Mrs. H. J. Ernster will entertain at dinner Thursday evening at the Cafe Guelker, Mr. and Mrs. Arthur Manuel.

A. Roberts of 1606 Minnesota avenue has returned to Crosby.—Duluth Herald.

William W. Maghan has been employed painting the F. A. Barker jewelry store.

The Ladies Aid society of the Swedish Lutheran church will give an ice cream social at the Odd Fellow hall on Saturday evening, July 9th.

A cement walk, ten feet wide, is being placed around the Deerwood Clothing Co. store.

Arthur Barry, a graduate of the three year course of the school of chemistry, University of Minnesota, has assumed a position in the C. J. O'Connell assay office.

G. E. Lent is putting in the stone work on the Harm's building.

Marion Cunningham has the lathing contract on the C. Berry residence a five room one story building.

John Hayden is erecting a residence on Crosby Beach which will be 14x20 and one story high.

Miss Sophie Smith, of Crosby, went to Brainerd today.

O'berg Bros. are grading in front of their place of business.

Misses Lillie Gilbertson and Thelma Reis, of Brainerd, who have been visiting Miss Olga Skau returned home yesterday.

Plans are now in Deerwood for the erection of ten houses in the First Addition. Arthur Breg has charge of this work.

Rainerd Olson has rented Jack Brinde's residence in the First Addition and has bought a corner lot on which he will erect a residence.

P. E. Markell has taken over the agency of the Pluto Powder Co.

On July 4th all the malt shops were closed promptly at nine o'clock in the evening.

Dr. R. J. Sewall's "Cuyuna hospital" will be opened in three days. Dr. M. Sundt will have charge of the institution and will reside in Cuyuna.

The Misses Dorothy Mason and Lucille Hage went to McGregor to visit Miss Kate Barker yesterday.

P. B. Markell played short stop in the Shit Lake team at the Fourth of July game with Midland at Midland. Shit Lake lost by a score of 10 to 14.

Marvelous Discoveries mark the wonderful progress of the age. Air flights on heavy machines, telegrams without wires, terrible war inventions to kill men, and that wonder of wonders, Dr. King's New Discovery—to save life when threatened by coughs, colds, lagrippe, asthma, croup, bronchitis, hemorrhages, hay fever and whooping cough or lung trouble. For all bronchial affections it has no equal. It relieves instantly. It is the surest cure. James M. Black, of Asheville, N. C. R. R. No. 4, writes it cured him of an obstinate cough after all other remedies failed. 50c and \$1.00. A trial bottle free. Guaranteed by all druggists. tsw

600 MILE AUTO TRIP

Dr. J. L. and Mrs. Frederick Return
From a Trip Through Southern
Minnesota

Dr. J. L. and Mrs. Frederick returned last night from a 600 mile automobile tour through southern Minnesota visiting at Waseca and other cities. They were gone a week and had a most enjoyable trip.

The route followed by Dr. Frederick lead from Brainerd to Minneapolis, St. Paul, Fairmont, Northfield, Fairbault, Owatonna and thence to Waseca. The roads generally were in good condition, especially the gravel roads of southern Minnesota. The automobile behaved well and the doctor had no difficulty whatever in negotiating the few hills on the route.

He states that crops look better at Waseca than at other points as the soil there is heavy and retains the moisture better. Everything appeared to be in good condition except the hay crop. The corn, wheat and oats were turning yellow and the farmers were wishing it would rain.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c. Take Hall's Family Pills for Constipation

OBSERVE RULES OF ROAD

Automobile Tourists Wish the Farm-
ers and Others Would Observe

Rules of the Road

It seems hardly possible but it is true, nevertheless, that many farmers and others who have been driving on roads and streets for years are not aware of the ordinary rules of the road or highway which custom from time immemorial has pronounced as proper and correct.

When you drive down a street or road keep the right side.

When you wish to pass a team ahead of you turn to the left of that team. The teamster on the other hand, if in the center of the road, should turn to the right and not to the left, so as to allow the automobile to pass him and going in the same direction to pass him.

Always make some signal and go slow around a sharp turn.

When an automobile turns from one street to another it should continue down the right side of the street, past the center of the intersecting streets and down the right side of the next street. Never cut from the right side of a street to the left side of a street when going around corners. These short cuts are contrary to the traffic laws of Minneapolis, St. Paul and other large cities where policemen are stationed in the center of street intersections to enforce this rule in crowded streets.

Never stop suddenly or back up suddenly in a street without first taking a look to the rear to avoid possible rear end collisions.

And if by chance your team or automobile runs a person down observe the ordinary rules of humanity by picking him up and taking him to his home or to a hospital.

VISITING AT DEERWOOD

Newly Weds. Mr. and Mrs. Arthur
Manuel Visiting Mr. and Mrs.
H. J. Ernster

Mr. and Mrs. Arthur Manuel who were married June 30th in Des Moines, Iowa, are visiting Mr. and Mrs. H. J. Ernster, of Deerwood. Mrs. H. J. Ernster is a sister of the bridegroom.

The "Des Moines Capital" has the following mention of the wedding under the caption, "A Wedding Last Evening of Unusual Interest in Des Moines."

"The marriage of Miss Clara Sorenson and Mr. Arthur Manuel was quietly celebrated last evening at the home of the bride's mother at Owatonna, Minn. It was attended with much refined yet elegant simplicity. The ceremony was performed according to the rites of the Methodist church in a corner of one of the parlors of the home, which was converted into a beautiful green bower with an arched entrance of smilax and flowers. The bride wore an exquisite gown of soft clinging white satin trimmed with old lace and pearl trimmings. Her long tulle veil was caught up with real orange blossoms. Musical interest centered in several vocal numbers contributed by Mrs. Henry Ernster, a sister of Mr. Manuel, who is the possessor of a beautiful voice. The bride was given away by her grandfather.

"Mrs. Manuel is a young woman of extensive travel in this country and abroad. She is a musician of much fine attainments supplemented with skill, which added exceeding pleasure to the many occasions of social contact during her short visit in Des Moines a few weeks ago.

"Mr. Manuel left an unusually wide circle of friends behind him here in the city recruited from all walks of life. His work as religious director of the Y. M. C. A. gave opportunity for a wide acquaintance which his sympathy and general poise combined with a genial personality and a musical voice made a most enviable one.

"Mr. and Mrs. Manuel will spend their honeymoon at Deerwood, Minn., in the bungalow of Mr. Manuel's sister and her husband, Mr. and Mrs. Ernster, which they turned over to them for their exclusive use. Mr. Manuel will not report at Rio de Janeiro, S. A., before November 1. In the meanwhile his energies will be actively employed in thorough preparation for the work he will undertake, and for which Mrs. Manuel is so well fitted to supplement him. Mr. Charles Chase of Des Moines, was one of the few guests present at the wedding.

SOO RAILWAY WORK

News From Deerwood and Cuyuna Regarding Construction Work on
This Line

The Soo railway is now engaged in making the fill southwest of the Second Addition to Deerwood.

Nelson and McMenemy's camps have combined and are one quarter of a mile from Deerwood. They will commence laying steel in eight days. Work has been commenced on the new Soo depot at Cuyuna. The studding is up for the first floor. Steel has been laid through the town and towards Crosby.

WILL SELL OUTSIDE BONDS

Northern Minnesota Counties Given
assurance that Money Will be
Available for Drainage

The Minneapolis Journal says:—W. R. Mackenzie of Bemidji and W. J. Brown of Warren, representing the Northern Minnesota Development association, were assured yesterday by the members of the state investment board that when necessary to meet applications for loans to counties for drainage purposes, the state will sell outside bonds to secure the funds. Bonds maturing within twenty years will be the ones sold. The amount of foreign bonds now held by the state school fund is \$6,100,00.

The investment board has loaned large sums on drainage bonds, but has not approved all applications, because it felt that some counties are going in too deep on the strength of unlimited credit with the state. All applications approved have been taken care of, but if the board becomes more liberal in allowing loans, it will have to sell some of the outside bonds.

The conference yesterday was an outcome of the Crookston meeting of the Northern Minnesota Development association, which instructed a committee to wait on the investment board and ask for the sale of the outside bonds. The board consists of Governor A. O. Eberhart, Chief Justice C. M. Start, State Auditor S. G. Iverson, State Treasurer E. S. Pettijohn, and John Lind, president of the board of university regents.

Messrs. Mackenzie and Brown speaking for the northern counties, declared that a large part of the money now invested in outside bonds is needed within the state for local improvements.

The bonds of other states are bearing interest at the average rate of about 3 1-4 per cent and the interest which the municipalities of this state will pay therefor is 4 per cent.

It is further shown that the swamp land grant of this state was granted to the state with an express proviso that the proceeds of the sale of the granted lands was to be used first in reclaiming the lands by drainage, and that the association is not requesting the state board to comply with the requirements of that provision, but only that the funds which are the proceeds of the sale of those lands should be loaned to the counties involved and not directly and finally appropriated for that purpose.

The committee also represented that at the time the school land grant was voted it was provided by constitutional enactment that the proceeds of the sale of the lands granted by the federal government for school purposes should only be invested in bonds of this or some other state, that this constitutional prohibition did not extend to the swamp land grant, which was not made primarily for school purposes, but was only appropriated to the purposes of the schools of this state by subsequent state enactment, and that there has been a popular misconception of the powers of the state investment board with reference to the loaning of this school fund.

It was argued before the board further that these drainage bonds of the counties of the state are, in fact, municipal bonds, having behind them the credit of the county issuing the same besides being secured by assessments upon the lands benefited, and that the security of these bonds as an investment of the state school fund was equal or superior to the investment in bonds of foreign states; and because of the higher rate of interest paid on these local bonds and the return to the state by reason of the general improvement within the state, the board of investment should exercise its discretion and sell the bonds of foreign states where it could be done without sacrificing the interests of the school fund of this state.

POLITICS AT GULL LAKE

Frank A. Day, Fred B. Lynch and J.
A. Hartigan Confer at Lynch
Residence

Frank A. Day, of St. Paul, the democratic leader of Minnesota passed through Brainerd yesterday from Gull lake to his home in St. Paul. Mr. Day spent the 3rd, 4th and 5th of July with Fred B. Lynch and in summer residence at Gull lake and in company with J. A. Hartigan, state insurance commissioner, slipped lemonade and went over the political situation in Minnesota.

FREE METHODIST MEETING

Will Hold Tabernacle Meeting Near
Sabin's Hall, Mill St., N. E.
Brainerd

The Free Methodists will hold a tabernacle meeting near Sabin's hall, Mill St., East Brainerd, commencing Saturday evening, July 9 and holding over two Sundays.

Winn, of South Haven, Minn., will be present and assist in the meeting. A cordial invitation is extended to all to attend the meetings.

Murallo, the sanitary wall finish, is better than wall paper. D. M. Clark & Co. 252tf

35c

For choice of 50c and 60c Wash Goods
Friday only

Just for one day we will give you the choice of our fine line of silk and cotton mixed wash fabrics, our 50c and 60c kinds, for 35c the yard. You have seldom ever noticed us advertise "below cost" even when we sell for less than we can buy the articles advertised. You can guess how much we are ahead to make such a price as we make on this wash fabric. If you know a real bargain and want one you will come in a hurry for this one. A beautiful line of colorings to select from.

H. P. Michael Co.

R. R. Officials in City

W. H. Wilson, assistant to third vice president; H. M. Curry, master mechanic; G. H. Gilman, master car builder; and O. C. Wakefield, chief store keeper, officials of the Northern Pacific railway, arrived in the city last night from St. Paul.

R. J. TINKLEPAUGH

"Upstairs"

First National Bank Block

Did you ever stop to realize that more city property has been sold in the last year than for the last ten years in Brainerd.

You may know what that means if you are a renter. You know too that if you buy a "home" reasonable that you have that satisfaction of not having to "move out" on thirty days notice as "house sold." And then again, one can make improvements from time to time and not notice the expense—only when you find a buyer—getting more than your rent free too.

Let me speak a word to the man that has a home and a little money that we have received our share of sales in city property and have no client that could not make money by selling now—we have the facts.

A home for some one situated on North side, an eight room house, bath, city water, cement basement, in fact everything to make it an ideal home. Barn. Right on the best street—Price \$2500.

Small house on south Sixth street, two lots, has been newly painted and papered throughout. Almost new condition.—Price \$650.

One of the finest little six room cottages on North-side is placed in our hands for short time. Modern except heat, and in good location with East frontage.—Price \$2500.

A very neat six room house on south Sixth street, two lots with trees, nice lawn, etc., and in very fine condition throughout.—Price Cash \$700.

A corner of two lots and about a seven room house, barn, east frontage, good condition.—Price \$1100.

Small house in good condition on south Fifth street, offered for short time only.—Price \$550.

A nice little place on south Fifth street with plenty of room too. A bargain at \$650.

Here is a genuine "Bargain," an eight room house Northside, one and one half lots and in good condition inside; is worth \$1500, but owner living in California says sell, and am offering it for only about half what it is worth.—Price \$800.

I have a nice little place on East Norwood street and in good condition at only \$650.

Brick-vener house of about six rooms and good lots, well worth three hundred mo. We can offer this for a short time at only \$600.

It will pay you to look this up.

Two small cottages in Northeast Brainerd, is now renting for \$14.00 per month. Why not buy and rent one and have the use of the other for nothing. Come up and let me show you these and at the price is "cheap" Price \$1000.

We still have the eight room house on North-side, "close-in" three lots, east frontage, trees, etc. An ideal home for someone. Price \$3000.

Come up and let me show you this as these kind are scarce

A very neat little cottage on north Fifth street, in good location and at only—Price \$1000.

House in good condition on south Sixth street, with east frontage, at only—Price \$1000.

House, barn, sheds, in good location in Northeast Brainerd, on corner with two lots, well worth looking up at the price.—Price \$1000.

Small house on Pine street South-east at only \$550.

If you have a house you wished sold or land either farm or mineral, come up and let us talk it over.

WE ARE MAKING SALES FOR OTHERS—LET US HELP YOU
